IIILM UNIVERSITY

School of Computer Science and Engineering | Greater Noida, U.P.

Internship Report Presentation

DATA SCIENCE MASTER

AICTE – EduSkills Virtual Internship Program

- **Student Name**
  Raunak Srivastava
- **Roll no**
  25SCS1003003053
- **Program & Semester**
  B.Tech CSE — 3rd Semester
- **Organization**
  Eduskillls

Internship overview

- Industry-oriented Data Science virtual internship
- Conducted through the AICTE–EduSkills Internship Program
- Focused on practical understanding of Data Science and Machine Learning
- Provided exposure to industry-relevant tools and methodologies
- Included structured learning, practical activities and assessment

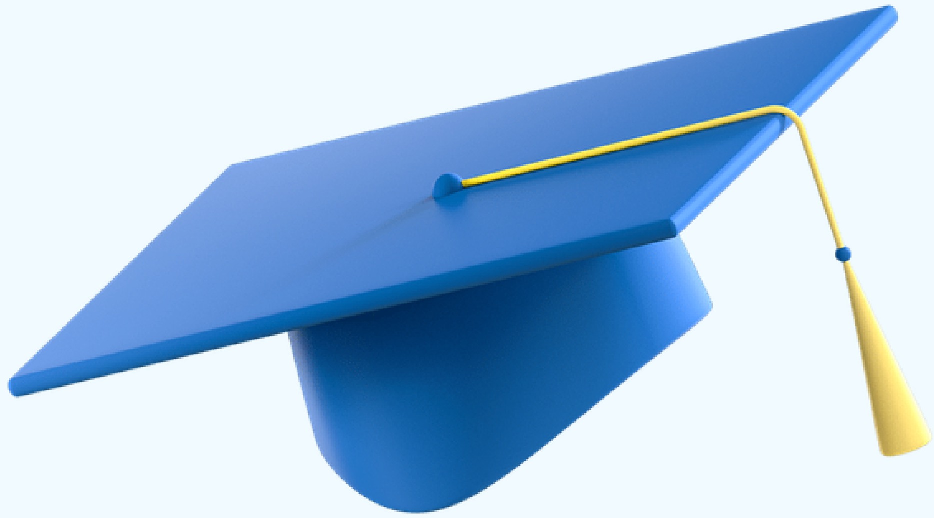
01

Key Areas Covered

- Data Science Fundamentals
- Data Preparation & Preprocessing
- Data Analysis
- Machine Learning
- Data Visualization
- Model Evaluation
- Industry-oriented Data Science applications

Duration : Approximately 8 Weeks / 2 Months

OBJECTIVES & LEARNING AREAS



02

Objectives

- Understand the complete Data Science lifecycle
- Learn how to work with real-world datasets
- Perform data cleaning and preprocessing
- Understand machine learning concepts and techniques
- Analyze and visualize data
- Understand model building and evaluation
- Develop analytical and problem-solving skills
- Gain industry-oriented practical exposure

Learning Areas

Data → Preparation → Analysis → Machine Learning → Evaluation → Insights

TECHNOLOGIES & TOOLS

03

Platform / Tools

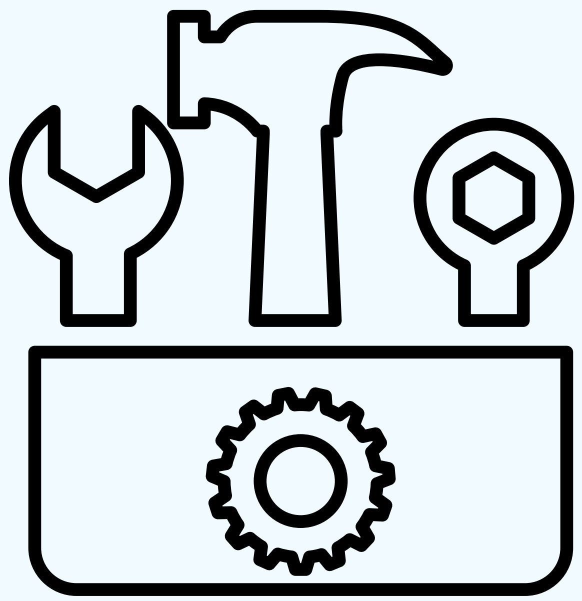
- Altair RapidMiner
- Data Analytics & Visualization tools
- Machine Learning workflows

Data Science Concepts

- Data Collection
- Data Cleaning
- Data Preprocessing
- Exploratory Data Analysis
- Feature Selection
- Machine Learning
- Model Evaluation

Machine Learning

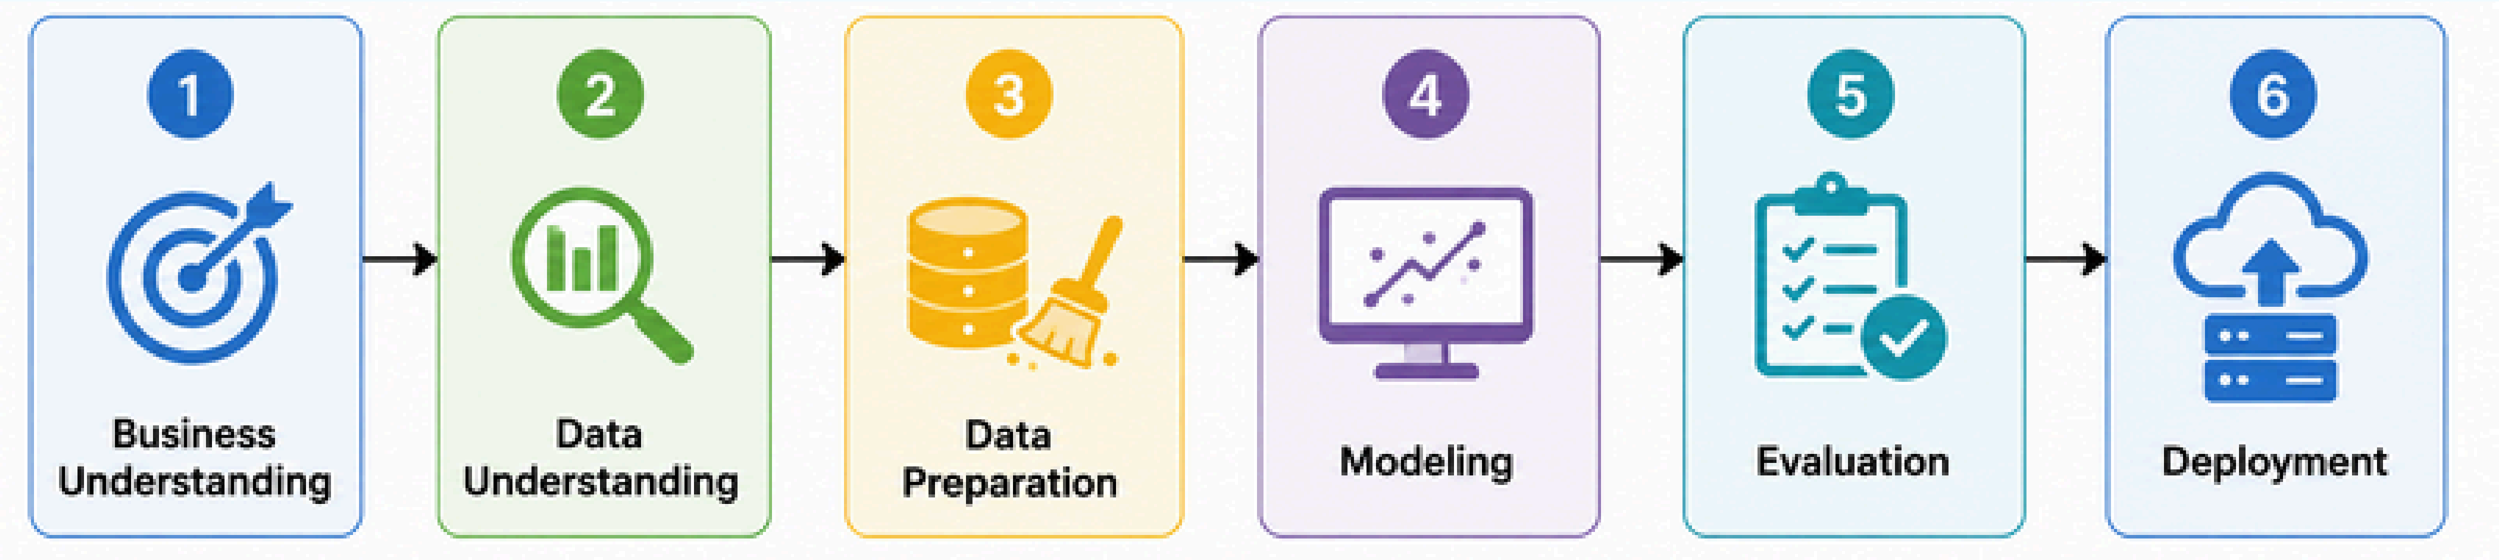
- Classification
- Regression
- Clustering
- Predictive Analytics



DATA SCIENCE WORKFLOW

04

Data Science Lifecycle — CRISP-DM



Explanation

- **Business Understanding: Define the problem and objective**
- **Data Understanding: Collect and explore the available data**
- **Data Preparation: Clean and transform the data**
- **Modeling: Apply suitable machine learning techniques**
- **Evaluation: Check model performance and results**
- **Deployment: Use the model/insights in a practical environment**

Practical Learning & Internship Activities

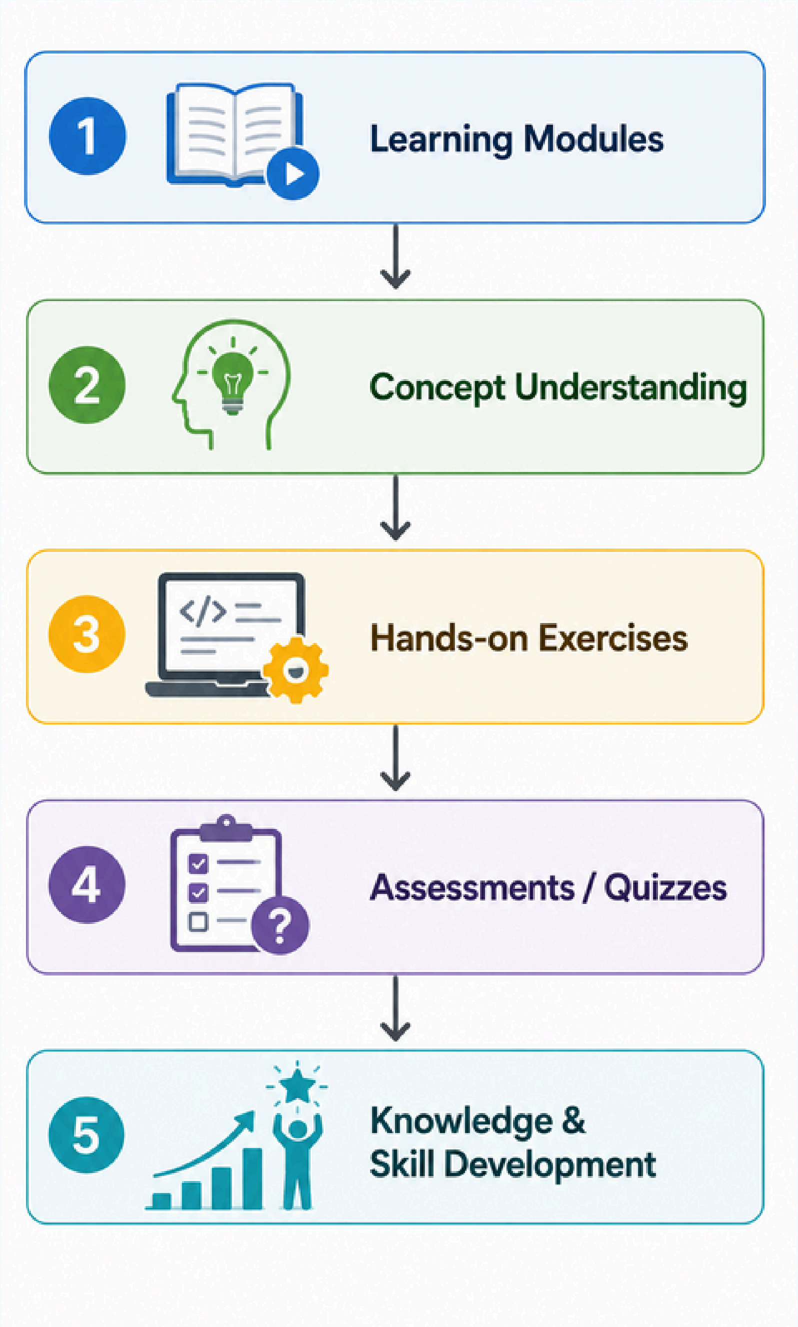
Practical Learning & Activities

During the internship, I worked through structured learning modules and practical exercises related to Data Science.

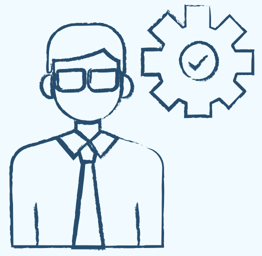
05

📌 Key Activities

- Completed the assigned Data Science learning modules
- Practiced concepts related to data preparation and preprocessing
- Explored Data Science and Machine Learning workflows
- Worked with data analysis and visualization concepts
- Understood different stages of the CRISP-DM methodology
- Learned about machine learning techniques and model evaluation
- Completed the required assessments/quizzes and internship activities
- Applied theoretical concepts through hands-on learning exercises



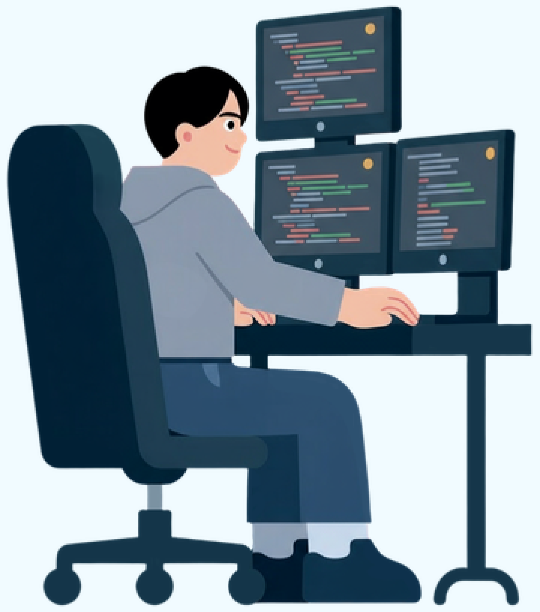
Skills & Learning Outcomes



Technical Skills

- Developed a basic understanding of Data Science concepts and workflows
- Learned the importance of data collection and data understanding
- Gained knowledge of data cleaning and preprocessing
- Understood the role of data analysis and visualization
- Learned fundamental concepts of Machine Learning
- Understood different stages of model development
- Learned the importance of model evaluation
- Became familiar with the CRISP-DM methodology
- Gained exposure to industry-oriented Data Science tools

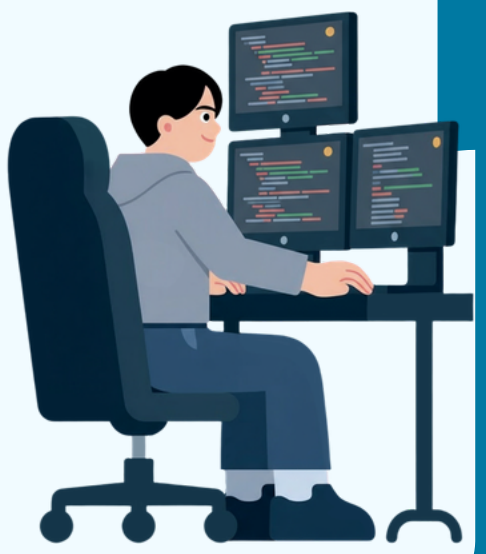
06



Skills & Learning Outcomes

Analytical & Problem-Solving Skills

- Improved logical and analytical thinking
- Learned to approach problems in a structured manner
- Developed the ability to identify patterns and relationships in data
- Improved understanding of data-driven decision making
- Learned to interpret results and draw meaningful conclusions
- Improved self-learning and research skills
- Developed better time-management skills
- Gained experience with online learning platforms
- Improved ability to follow structured technical modules
- Developed greater awareness of industry expectations
- Built a foundation for future projects in Data Science, AI and Machine Learning



CONCLUSION & CERTIFICATION

Conclusion

- Successfully completed the Siemens Data Science Master Virtual Internship through the EduSkills/AICTE program.
- Gained foundational knowledge of Data Science and Machine Learning.
- Understood the complete Data Science lifecycle from data understanding to evaluation.
- Learned the importance of data preprocessing, analysis and visualization.
- Developed familiarity with industry-oriented Data Science tools and workflows.
- Understood the CRISP-DM methodology and its role in structured problem solving.
- Improved analytical thinking, logical reasoning and technical knowledge.
- Gained confidence to explore more advanced topics in Data Science, AI and Machine Learning

Successfully completed:

- Data Science learning modules
- Practical learning activities
- Assessments / quizzes
- Required internship requirements
- Internship certification

CONCLUSION & CERTIFICATION

09

शिक्षा मंत्रालय
MINISTRY OF EDUCATION

NATIONAL INTERNSHIP PORTAL

EduSkills
Nation Building Through Skills

AICTE - EduSkills 2026 VIRTUAL INTERNSHIP

Certificate of Virtual Internship

This is to certify that

Raunak Srivastava

IILM University, Greater Noida

has successfully completed the 8-weeks

Data Science Master Virtual Internship

During June - August 2026

May this Internship learning propel you toward a bright and successful career.

Supported By

SIEMENS

Gaurav Pai
Head - Strategy and Operations
Siemens Industry Software (India) Pvt. Ltd

Dr. Buddha Chandrasekhar
Chief Coordinating Officer (CCO)
AICTE, Ministry of Education

Shubhajit Jagadev
Chief Executive Officer (CEO)
EduSkills

Certificate ID : 4e8f935fd7e1c94749d3

Student ID: STU6a548c577f8a01783925847

INTERNSHIP GRADE O

GRADE- O (Outstanding):90-100 | E (Excellent):80-89 | A (Very Good):70-79 | B (Good): 60-69 | C (Fair): 50-59 | D (Average): 40-49 | P (Pass): 30-39 | F (Fail): Below 30

Thank You
